OBJECTIVE

To find a career that fuels my passion for technology. I want to be employed at a company that challenges their employees, pushes them to grow, and cares for them and their clients alike. What I lack in experience, I make up for in passion, enthusiasm, and willingness to learn.

SKILLS

Technical

- Python
- Django
- Web-Dev Full Stack
- CSS
- HTML
- Bootstrap

Non-Technical

- Adaptable
- Quick Learner
- Energetic and Enthusiastic
- Organized
- Detail Oriented
- Excellent Communicator

EDUCATION

University of the People

BS: Computer Sciences (current - graduation 2022)

Coding Dojo

Python full stack web dev. (completed 2019)

PROJECTS

Personal "Webumé"

I created my personal website/resume from the ground up using Django, Python, CSS, HTML, and Bootstrap. This project is a good example of my current knowledge of Full-stack Web Dev. Check it out @ cjstorrs.com

WORK

Mens Wearhouse (Manager, 11 years)

Although work here does not prove proficiency in technical skills, the experience I have gained is invaluable. Every day I hone my **communication, teamwork, problem solving** and **leadership** skills.
